Rail/Transit

Orange County's Light Rail System, Centerline Project

Mr. Hout was involved in the planning and implementation of Orange County's light rail system commonly known as the Centerline project. As OCTA representative, he was involved with alignments, funding, preliminary engineering, and right-of-way and utility clearances for the project. The project was eliminated from Orange County's Transit Master Plan by the Board of Directors in 2008.

Location

Orange County, California

Client

Orange County Transportation Authority
