Roadways

State Route 91/55/57 PSR

Sam was overseeing a comprehensive study on the corridor between SR-55 and SR-57 to determine preliminary design, operational characteristics, and overall feasibility for adding road capacity. Continued improvements for the SR-55 and SR-91 freeway interchange complex were being explored, as well as an evaluation of overall road capacity needs between the two major interchanges.

Location

Irvine, California

Client

Orange County Transportation Authority
